#### *Information We Obtain by Automated Means*

When you interact with our Sites or open our emails, we, our partners, our advertisers, and third party advertising networks obtain certain information by automated means, such as through cookies, web server logs, web beacons, session replay software, scripts, device or browser fingerprinting, tracking software and other technologies. A "cookie" is a text file that websites send to a visitor's computer or other Internet-connected device to uniquely identify the visitor's browser or to store information or settings in the browser. A "web beacon," also known as an Internet tag, pixel tag or clear GIF, links web pages to web servers and their cookies and may be used to transmit information collected through cookies back to a web server. "Session replay software" tracks a visitor's activities on websites, including keyboard strokes, page scrolling, and mouse/pointer locations, movements, and clicks.

We may use these automated technologies to collect information about your equipment, browsing actions, and usage patterns. The information we obtain in this manner may include your device IP address, identifiers associated with your devices, types of devices connected to our services, web browser attributes and characteristics, device attributes and characteristics, language preferences, referring/exit pages, clickstream and page-scroll data and other information about your interactions with our Sites, and dates and times of website visits. These technologies help us (1) remember your information so you will not have to re-enter it; (2) track and understand how you use and interact with our products and services; (3) tailor the Sites around your preferences; (4) measure the usability of our Sites and the effectiveness of our communications; (5) provide customer support, and (6) otherwise manage and enhance our Sites.

Your browser may tell you how to be notified when you receive certain types of cookies or how to restrict or disable certain types of cookies. Please note, however, that without cookies you may not be able to use and enjoy all of the features of our Sites. For mobile devices, you can manage how your device and browser share certain device data by adjusting the privacy and security settings on your mobile device.

#### *Online Tracking and Interest-Based Advertising*

On our Sites, we and our partners may collect information about your online activities to identify you and provide you with advertising about products and services tailored to your interests. You may see our ads on other websites or mobile apps or receive our ads by mail because we participate in advertising networks (such as Google AdWords and Google AdSense) and other partnerships. We use ad networks and other partners that allow us to target our messaging to users considering demographic data, users' inferred interests and browsing context. These advertising partners track users' online activities over time by collecting information through automated means, including through the use of cookies, web server logs, web beacons and other similar technologies. These partners use this information to show ads that may be tailored to individuals' interests, to track users' browsers or devices across multiple websites, and to build a profile of users' online browsing activities and contact information.
